Cables, connectors, components

LAPP GROUP

The Lapp Group

Headquarters in Stuttgart

Lapp-Center in Stuttgart

The Lapp Group provides a complete range of cables for all manner of industries and markets. Sourcing from a single supplier means competent advice and consistently high quality down to the last detail for designers, planners and manufacturers. Not only that, they can also be sure that all components are perfectly harmonised and enjoy fast, hassle-free ordering. Lapp Group's products are predominantly manufactured in the Lapp Group's own production plants.

Over 40,000 different standard products are currently available off the shelf. In addition, special cables are developed and produced to create individual customer solutions.

To contact your local Lapp Group representative please visit www.lappgroup.com/worldwide

Our international brands

ÖLFLEX® Power- and control cables

ÖLFLEX® is used in machinery, machine tools, system and appliance engineering, measuring, control, heating and air conditioning technologies. For permanent connections or in cable chains, halogen-free

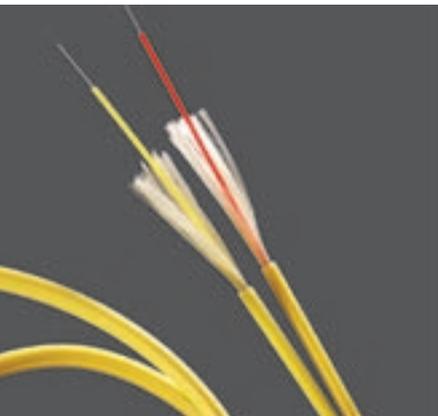

or internationally certified, you can choose from our comprehensive range of standard products.

UNITRONIC® Data communication systems

Lapp produces a full range of data cables for fast and secure transfers of large volumes of data. From machine electronics and bus systems to super-fast LAN data

networks or highly-versatile applications: We have the data cables you need for virtually any situation.

HITRONIC® Optical transmission systems

HITRONIC® fibre optic cables are designed to transfer large volumes of data. Communications media via fibre optics are fast, efficient, and secure. Not even electromagnetic interference can affect HITRONIC®

fibre optic cable. The HITRONIC® range of products includes cables for office communications, industrial applications, simplex, duplex, hybrid wiring, or cable chain applications.

SKINTOP® Cable glands

SKINTOP® cable glands guarantee secure connections every time. Simply thread the cable and twist. That's all! Your cables are perfectly centered, secured, hermetically sealed, and ready for action. Choose from

a wide range of models in plastic or brass, for EX and EMC applications, halogen-free types or anti-kink protection, metric, PG or NPT.

Our international brands

SILVYN® Protective cable conduit systems and cable carrier systems

In many applications cables have to be additionally protected against mechanical and chemical stress. For this type of application, Lapp Group can supply the universal **SILVYN®** protective cable conduit program. Cable conduits manufactured from metal or plastic material, which can be used with matching glands to form a perfect

system connection. The complete system results in all round protection for cables in indoor and outdoor installations. With **SILVYN® CHAIN**, Lapp Group's widely variable programme of power chains we offer both cable protection and guidance for highly dynamic applications.

FLEXIMARK® Cable marking products

Labels on single cores, cables, and control cabinets need to remain legible for years to come. This is the best way to keep things well organized and avoid potential problems.

From plastic to durable stainless steel, manual or electronic identification, with **FLEXIMARK®** you can be sure that your labels will last a lifetime.

EPIC® Industrial connectors

When we talk about secure connections, you can take us at our word. **EPIC®** industrial connectors produce an absolutely secure connection in combination with ÖLFLEX® cables. We provide the right contact for all

your needs: From rectangular or circular connectors, to housings, inserts, contacts and accessories, bus or fibre optic cable applications.

ETHERLINE® Data communication systems for ETHERNET-Technology

The Lapp Group is now in a position to offer comprehensive system solutions in the field of industrial networking. Its Factory Automation division supplies active network components that are used to supplement existing cable and plug technologies. These include services and security systems incor-

porating firewall solutions, in addition to distribution components such as switches, routers, cables and plug connectors. For its industrial customers, all of this means that a solution from the Lapp Group represents a considerable step forward in terms of security, safety and availability.

A full range of products for your sensor and actuator wiring requirements

Sensor-/Actuator wiring Requirements

There is a trend in mechanical and plant engineering towards decentralised control systems. In these applications, the entire wiring system and infrastructure for signal transmission consists of passive field bus modules for the Sensor-/Actuator level. Passive distribution systems are an important building block of plant and machine in-

stallations. They connect all of the peripheral devices and systems with the controls. A passive system consists of distribution boxes, cables, ready-made connectors, sockets and wall ducts. The modular design of a passive system facilitates installation and commissioning. Servicing times are also significantly reduced.

Sensor-/Actuator Cables

We supply a comprehensive range of ready-made cables with M8, M12 and valve plug connections which allow sensor and actuator wiring to be completed rapidly in the field. Sensor-/Actuator cable variants equipped with LEDs can be used to allow easy monitoring of signal states.

Versions with shielded lines can be used for applications subject to increased electromagnetic compatibility (EMC) requirements.

Sensor-/Actuator Boxes

Sensor-/Actuator boxes with M8 or M12 connections are available as decentralised nodes. The M8 boxes are available with 4, 6, 8 or 10 slots.

The M12 boxes are available with 4 or 8 slots and with dual assignment capability for connecting two Sensor-/Actuator lines per slot.

LEDs indicate the switching states of the inputs and outputs.

For the trunk cable there is the option of plug-in screw connections, the use of ready-made M12 and M16 connecting cables or the use of boxes with integrated trunk cabling.

Panel Connectors for Sensors/Actuators and Field Wireable Connectors

M8 and M12 panel connectors with integrated stranded wire for PCB connection are available for connecting devices.

Flexibly wireable connectors can be used for rapid field wiring of individual lengths of cable for M8 and M12 Sensor-/Actuator connections. Both screw connections and quick-connect couplings are available.

Fieldbus based sensor/actuator cabling

Sensor/actuator boxes

Sensor/actuator boxes with the standardized connection technology provide connections to all commercially available sensors and actuators and are the solution for decentralizing small numbers of I/O's. Sensor/actuator boxes can be connected to the Profibus, DeviceNet™ and CANopen fieldbus systems. Regardless of whether you are

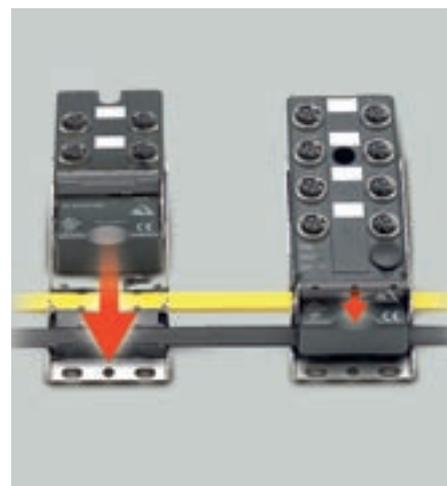

installing them on profiles, on flat surfaces or under rough conditions – the assembly concept ensures flexibility and reduces the installation costs. The devices enable assembly in two directions and are thus suitable for every application. The arrangement of connectors minimizes the installation time even under rough conditions.

AS-i boxes – Easy cabling in the lower field level

The AS-i devices were designed for efficiently networking sensors and actuators in the AS-i network and allow for fast and safe installation with tool-free contacting. AS-i devices can be installed quickly and easily. The locking mechanism allows a tool-free connection to the AS-i flat conductors. They

are pressed into the corresponding guide aids and the module electronics are moved forward. The devices are connected to the AS-i flat conductors using the penetration technique by snapping the hinged section into place.

Accessories

A comprehensive range of cables, T distributors, termination resistors, free assembly plugs and accessories is available for the

quick cabling of sensors and actuators in the field.

Lapp products learn how to talk

Lapp RFID - New product highlights by Lapp

The latest innovation from Lapp Kabel is ready for launch under the motto „Lapp products learn how to talk“. Lapp Kabel has combined

its cable and connector technology with an RFID system.

What is RFID?

RFID stands for „Radio Frequency Identification“. This technology uses radio waves to transfer data. The scanner does not have to contact the RFID tag and tags can still be read even if they are beyond the line of sight of the scanner.

In its most basic form, an RFID system consists of at least 3 components:

- Transponder
- Reader/Scanner
- IT system

The word „transponder“ is made up from the words „trans(mitter)“ and „(res)ponder“. The transponder is the component which actually holds the data in the RFID system. It consists of an antenna, a microchip and a housing. It is designed to accept and store data or to allow data to be read out from it.

The writing/reading device is often combined in one unit. It can be a handheld device, a mobile phone or a device specially developed for RFID technology. These devices are used to write data to the transponder or read out data from it.

The IT system allows the data to be processed and, for example, incorporated into an inventory management system.

RFID is often compared to barcode technology, which has been in use for many years. In actual fact, RFID has some important advantages compared to barcode technology:

Non-contact data reading beyond the line of sight

Since RFID is based on radio technology, data can be transferred without the need for the scanner to contact the tag. RFID tags can still be read even if they are beyond the line of sight of the scanner, unlike barcodes.

Simultaneous reading and writing of data

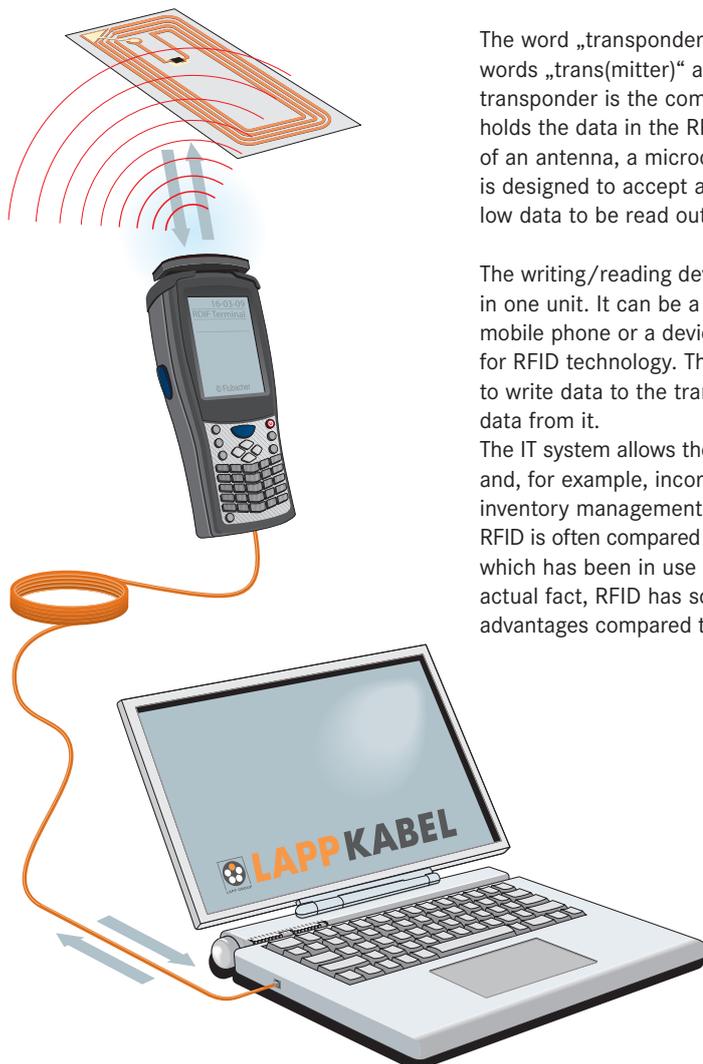

A barcode system requires a database which supplies the relevant data. This means that a connection to the corresponding database is always required to identify a barcode. With an RFID transponder, identification data can be stored on the chip itself. This data is thus definitively assigned to the product.

Resistant to external influences

External influences such as dirt or moisture have no effect on RFID transponders. Barcodes may however be rendered illegible and thus unusable in similar circumstances.

Bulk scanning

RFID allows multiple transponders to be scanned in one operation.

Lapp products learn how to talk

Cables and connectors with RFID

All of the mentioned advantages of RFID have now been combined with high-quality products from Lapp Kabel. RFID chips and RFID sensors are integrated into the cable and connector during production. This has no effect on the high flexibility and physical durability of the components. This innovation allows the cables and connectors to be used for new applications:

Identification

It is often the case that several companies are contracted to work on setting up the same event. Whereas one company will be responsible for ensuring quality, another company will be in charge of sth. else. Naturally, the companies sometimes use the same infrastructure. Cables and connectors are often disassembled and then reassembled elsewhere, making it hard to keep track of them. RFID offers a solution to this problem by definitively identifying all of the components. An RFID chip is used to identify the company the component belongs to, preventing any mix-ups.

Inventory management

Due to the large quantities of cables and connectors in use, a lot of effort is put into handling these products. By connecting the products to an inventory management system using modern RFID technology, inventory management processes can be optimised significantly. The potential for manual data entry errors is minimised considerably, which in turn reduces process costs.

Storage of measurement logs

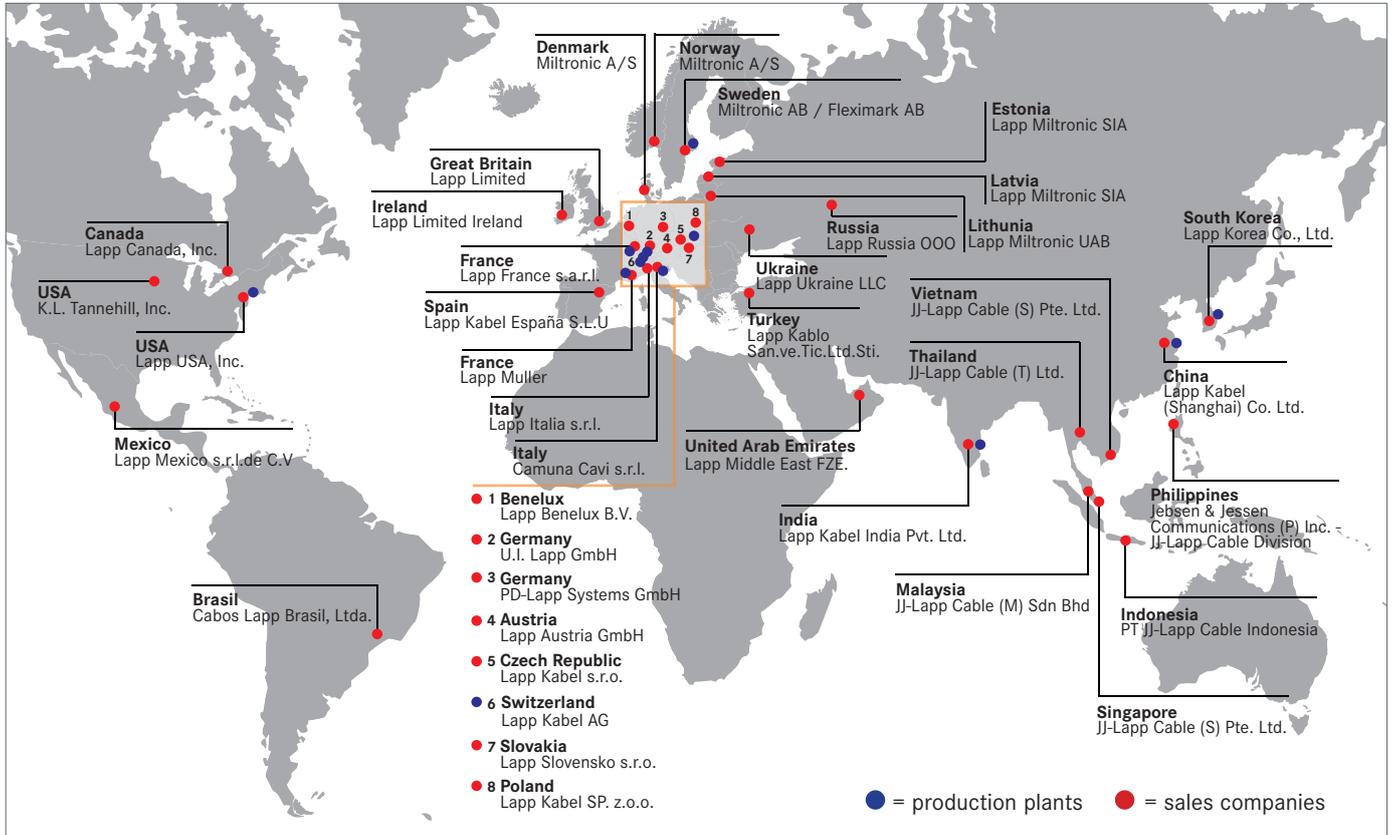

The law requires regular checking of cables and connectors used for mobile power supply applications. Since RFID transponders can store data and are rewritable, they can be used to store measurement logs i.e. the latest measurement logs can be stored directly on the component that has been checked. This allows the data to be accessed at any time and place if required.

Temperature and moisture measurement

Along with RFID chips, Lapp Kabel has also developed RFID sensors which can be integrated into a cable. These sensors can be used to monitor certain aspects of a cable. These include, for example, temperature and moisture measurement.

The Lapp Group worldwide

The Lapp Group around the world

The Lapp Group is an internationally active family business with headquarters in Stuttgart. Around the world, 3.000 employees in 17 production sites, 39 distribution companies and more than 100 agencies are involved in production, marketing and providing advice and service to customers.

“Think global, act local” is seen less as a slogan, but more as part of the company philosophy. After all, a strong customer focus is something we achieve all the time. This by no means contradicts our clear commitment to Stuttgart and to Germany. In addition to Germany, there are six other production sites in Europe.

With the acquisition of other business skills, the Lapp Group intends to expand its range of products and to open up new markets.

Three other production sites in Asia – with the emphasis on the boom country of India – and two in the USA support the export industry in Germany and Europe and help our customers exploit these markets.

On the one hand this provides the greatest possible proximity to customers, while on the other enables local requirements and regulations to be taken into account. Further benefits ensue, e.g. the elimination of transportation costs without having to sacrifice

the high quality reputation of “Made by Lapp”.

Lapp’s own Centers of Competence for the advanced training of employees and customers, e.g. in India, Thailand and Russia, round off our range of services.

Larger companies, such as those in Russia, India, China, Canada and Mexico, have their own warehouses. The other companies are quickly and reliably supplied from the relevant central stores.

LAPP KABEL STUTTGART

ÖLFLEX®-SERVO-FD

KABEL STUTTGART

New

ÖLFLEX® CHAIN 879

PVC insulated, numbered, PVC sheath, approved

ÖLFLEX® CHAIN 879 (UL) MTW OR AWM — CSA AWM II A/B CE

Info

- NFPA 79 Ed. 2007 compliant power chain cable

Benefits

- USA. Labeling of Industrial machinery. Because its MTW listing, these cables are highly accepted by NRTLs or AHJs
- Broad application range due to multiple approvals

Application range

- In power chains or moving machine parts
- Automated handling equipment
- Production plants
- Plant engineering

Product features

- Oil resistant according to UL OIL RES I & II
- Low adhesive surface
- Flame retardant in accordance with IEC 60332-1-2 and CSA FT 1
- In damp and wet rooms
- Designed for 2 up to 8 million bending change cycles in the power chain

Approvals (Norm references)

- For travel distances up to 10 m.
- Usage in Power Chains: Please comply with the assembly guidelines Appendix T3
- Multi standard cables with mm² and AWG/KCMIL (MCM) sizes normally have special conductor strands, which means that one of the specified conductor cross-sections works out greater than the specified nominal value.

Design

- Extra fine strands of plain copper wires (Class 6)
- Core insulation: PVC with nylon jacket (PA skin)
- Cores twisted in layers in short lay lengths
- Nonwoven wrapping
- PVC outer sheath, black (RAL 9005)

Technical data

- Core identification code**
Black with white numbers acc. to VDE 0293
- Approvals**
UL MTW, UL AWM Style 2587 & 21098
CSA AWM IA/B; IIA/B FT 1
- Based on**
VDE 0250/0281
- Conductor stranding**
Extra fine wire in according to VDE 0295 Class 6/ IEC 60228 Class 6
- Minimum bending radius**
For flexible applications: 7.5 x outside diameter
except #872003, 872012, 871803, 871812:
12 x o.d.
Static:
4 x cable diameter
- Rated voltage**
IEC: 300/500 V
UL/CSA: 600 V
- Test voltage**
2000V
- Protective conductor**
G = with protective conductor GN/YE
- Range of temperature**
Occasional flexing: -5°C to +90°C
Fixed installation: -40°C up to +90°C

ÖLFLEX® CLASSIC 110

Info

- Change to an improved version:
 - without talcum
 - additional meter marking

Benefits

- Space saving installation due to small cable diameters
- High electrical performance due to 4kV test voltage

Application range

- Plant engineering and construction
 - Industrial machinery
 - Air conditioning installations
 - Power station
 - Stage technique
- Fixed installation as well as occasional flexing at free, non-continuously recurring movement without tensile load
- Dry or damp interiors under medium mechanical load conditions

Product features

- Flame retardant according to IEC 60332-1-2
- Good chemical resistance see Appendix T1

Approvals (Norm references)

Design

- Fine strands of bare copper wires
- PVC insulation LAPP P8/1
- Cores twisted in layers
- PVC outer sheath, grey (RAL 7001)

Technical data

- Core identification code**
Black with white numbers acc. to VDE 0293

New

ÖLFLEX® TORSION FRNC

Cold- and oil resistant cables for flexible application under torsionally load - 0,6/1 kV

Info

- Torsion resistant and very flexible
- Improved characteristics in case of fire
- Internationally approved

ÖLFLEX® TORSION D FRNC

Screened cold- and oil resistant cables for flexible application under torsionally load - 0,6/1 kV

Info

- Screened EMC compatible version

Benefits

- The special construction compensates reliably the permanent torsional movements inside of windmills between the nacelle and the tower
- The high flexibility and the good dismantle and stripping properties enable easy space-saving cable installation and fast processing
- Saltwater resistant for On- and Off-Shore application
- **FRNC = Flame Retardant Non Corrosive**
 - Reduction of flame propagation and density and toxicity of smoke gases in event of fire
 - Minimisation of damage to buildings and production facilities
 - Safety for maintenance staff resp. in areas with high personnel concentration
- The copper wrapping of the screened D version assures EMC and protects against electromagnetic interference

Application range

- For fixed, flexible as well as torsionally moved applications in the field of machinery building and wind power plant engineering
- Especially for the so-called loop-installation between the rotating nacelle and the stationary windmill tower to connect the generator and control units

Product features

- Torsion resistant up to +/-150° /mtr

- Good weather-, abrasion-, temperature- and UV resistance
- Good resistance against hydraulic and gear oils
- Halogen free and flame retardant
- Considering economic minimum quantities also customized designs are possible

Approvals (Norm references)

- UL AWM Style 21288 / CSA AWM II A/B
- Fire behaviour :
 - Halogen free (IEC 60754-1)
 - Corrosivity of gases (IEC 60754-2)
 - Smoke density (IEC 61034-2)
 - Flame retardant (IEC 60332-1-2)
 - No flame propagation (IEC 60332-3-24 resp. IEC 60332-3-25)
 - Complies with CSA FT4 flame test
- Oil resistant acc. to VDE 0473 part 811-2-1 and UL OIL RES I and UL OIL RES II

Design

- Super fine wired conductor of plain copper
- Core insulation of halogen free polyolefin polymer
- Cores torsion optimized twisted into layers
- Optional screening (D) of helically tinned copper wire wrapping
- Outer sheath of halogen free special compound, colour black (RAL 9005)

Technical data

- **Core identification code**
Colour and connection cables: Colour coded according to VDE 0293-308, see Appendix T9
Starting at 6 cores: Black with white numbers
Paired signal cables: DIN 47100
- **Approvals**
UL AWM Style 21288
CSA AWM II A/B
- **Specific insulation resistance**
> 20 GOhm x cm
- **Conductor stranding**
Extra fine wire in acc. to VDE 0295 Cl.6 / IEC 60228 Cl.6
- **Minimum bending radius**
Flexible use: 10 x outer diameter
Fixed installed : 6 x outer diameter
- **Rated voltage**
nach VDE: U_c/U 0,6/1,0 kV
Working voltage acc. UL/CSA: 1000V
- **Test voltage**
ÖLFLEX® TORSION FRNC
C/C: 4000 V
ÖLFLEX® TORSION D FRNC
C/C: 4000 V
C/S: 2000 V
- **Protective conductor**
G = with protective conductor GN/YE
X = without protective conductor
- **Range of temperature**
Flexible use: -40°C up to +90°C (UL +80°C)
Static use: -40°C up to +90°C (UL +80°C)

 Please find our standard lengths at: www.lappkabel.de/en/cable-standardlengths
 Packaging size: Coil ≤ 30 kg and ≤ 250 m, otherwise drum
 Please specify the desired packaging size (e.g. 1 x 500 m drum or 5 x 100 m coils)

Expanded ambient temperatures

Silicone cables (-50°C up to +180°C)

ÖLFLEX® HEAT 180 UL/CSA

UL/CSA approved silicone cables (AWM)

Info

- For the use in the USA and in Canada
- UL AWM Style 4476 150°C/600V

New

ÖLFLEX® HEAT 180 C UL/CSA

Screened UL/CSA approved silicone cables (AWM)

Info

- Screened EMC compatible version

Benefits

- UL and CSA approval for export-oriented appliance and apparatus builders
- Thicker cable design meets the requirements of the FT-1 Vertical Flame Test and is thus also approved for installation in accordance with UL outside of apparatus and appliances
- Good flexibility ease the installation where space is limited
- The copper braid of the C- version protects against electromagnetic interference

Application range

- Areas with high ambient temperatures where insulating and sheath materials of conventional cables will embrittle after a short while
- Typical fields of application
 - Steel-, cement-, ceramic and iron works
 - Bakery equipment and industrial furnaces
 - Electric motor industry
 - Sauna/solarium construction
 - Thermal and heating elements
 - Lighting technology
 - Ventilator engineering
 - Air conditioning technology
 - Galvanization technology
 - Polymer processing
 - Generator and transformer building
 - Wind turbine engineering

Product features

- Metric flexible conductor design
- Halogen-free and flame retardant (IEC 60332-1-2)
- Reduced smoke density
- Good hydrolysis and UV resistance
- Resistant against a multitude of oils, alcohols, vegetable and animal fats and chemical media

Approvals (Norm references)

- UL AWM 4476 and CSA AWM II A/B
- Also available on request as special product with AWM rating 200°C/600 V
- Multi-conductor Type AWM cables (Appliance Wiring Material) shall be permitted for industrial machinery (US) when part of a listed assembly suitable for the intended use only. NFPA 79 Edition 2007 §12.2.7.3

Design

- Fine strands of tinned copper wires
- Silicone based core insulation
- Cores twisted together
- Optional copper screen braid (C-version)
- Silicone based outer sheath, colour black

Technical data

Core identification code
Colour coded according to VDE 0293-308, see Appendix T9
Starting at 6 cores: Black with white numbers

Approvals
UL AWM Style 4476 (Construction B)
CSA AWM II A/B

Specific insulation resistance
>200 GOhm x cm

Conductor stranding
Fine wire in accordance to VDE 0295
Class 5 / IEC 60228 Class 5

Minimum bending radius
ÖLFLEX® HEAT 180 UL/CSA
Occasional flexing: 15 x cable diameter
Fixed installation: 4 x cable diameter
ÖLFLEX® HEAT 180 C UL/CSA
Occasional flexing: 20 x cable diameter
Fixed installation: 6 x cable diameter

Rated voltage
VDE U0/U: 300/500 V
Operating voltage UL/CSA: 600 V

Test voltage
2000 V

Protective conductor
G = with protective conductor GN/YE
X = without protective conductor

Range of temperature
VDE: -50°C up to +180°C
According to UL/CSA: up to +150°C
(adequate ventilation provided)

New

ÖLFLEX® SOLAR XLR ST

The latest solar cable generation according to PV1-F design

Info

- According to DKE requirements specification PV1-F
- TÜV Type Approved (2PFG 1169/08.07)

Benefits

- High thermal capacity for long lasting operation of the PV system at all seasons
- Reduced spreading of fire source and formation of toxic combustion gases in event of fire
- Variously coloured core insulations simplify on demand the differentiation of the polarity during installation
- Robust against mechanical impact
- Exact quantity control during installation by meter marking on the cable sheath

Application range

- For cabling of solar modules among themselves and as extension cable between the individual module strings or DC/AC inverter
- Gable and flat roof photovoltaic systems
- Open land solarfield plants

Product features

- Excellent weather-, temperature- and UV resistance
- Good notch and abrasion resistance

- Good heat pressure resistance
- Halogen-free and flame-retardant.
- Resistant against ammonia- and biogases, oxalic acid, sodium hydroxide and other chemical media

Approvals (Norm references)

- TÜV Type Approved (2PFG 1169/08.07)
- Halogen-free according to EN 50267-2-2
- Ozone resistant according EN 50396
- Weather-/UV resistant according HD 605/A1
- Acid-/brine resistant according EN 60811-2-1

Design

- Conductor: Fine wired tinned copper strands
- Core insulation: Electron beam cross-linked copolymer
- Outer sheath: Electron beam cross-linked Copolymer
Colour: Black (RAL 9005)
- **XLR = X-Linked Radiated**

Technical data

Approvals
PV1-F (TÜV Type approved according 2 PFG 1169/08.2007)

Conductor stranding
Fine wire in accordance to VDE 0295 Class 5 / IEC 60228 Class 5

Minimum bending radius
Fixed installation:
4 x cable diameter

Rated voltage
AC U0/U : 600/1000 V
DC U0/U : 900/1500 V
Max. permissible operating voltage:
DC 1800 V

Test voltage
AC 6500 V

Range of temperature
40° C up to +120° C max. conductor temperature
Ambient temperature according IEC 60216-2 :
At +90° C the expected service life amounts to 25 years

ÖLFLEX® SOLAR XLS

Cross-linked standard solar cables

Info

- Temperature range -40°C up to +100°C

Benefits

- Robust against mechanical impact
- Reduced spreading of fire source and formation of toxic combustion gases in event of fire
- Exact quantity control during installation by meter marking on the cable sheath

- On request and considering economic minimum lengths also available with red and blue outer sheath

Approvals (Norm references)

- Flame retardant according to IEC 60332-1-2
- Halogen-free according to EN 50267-2-2
- Ozone resistant according EN 50396

S/A cable, M12 connector on free conductor end

S/A cable, M12 connector on free conductor end

Benefits

- Cost saving because of quick and easy installation
- Space saving because of compact dimensions
- Fast and easy error tracking
- Standardized interfaces

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

Product features

- 3-pos. connector
- Plug design with M12 thread on free conductor end
- The cables have marker carriers
- Free of substances which would hinder coating with paint or varnish
- Drag chain suitable

Approvals (Norm references)

Design

- PUR halogen-free cable
- Permanently flexible control cable
- Design: 3 x 0.34 mm² (42 x 0.1 mm)
- Conductor colors brown, blue, black
- Sheath color black

- The cables have marker carriers
- Free of substances which would hinder coating with paint or varnish
- Drag chain suitable

Approvals (Norm references)

Design

- PUR halogen-free cable
- Permanently flexible control cable
- Design: 3 x 0.34 mm² (42 x 0.1 mm)
- Conductor colors brown, blue, black
- Sheath color black

Technical data

Degree of protection

IP65/IP68/IP69K

Ambient temperature (operation)

Plug / socket

-25°C to 90°C

Cable, fixed installation

-40°C up to 80°C

Cable, flexible installation

-5°C up to 80°C

Contact material

CuSn

Contact surface material

Ni/Au

Coding

A - Standard

Material, knurls

Zinc die-cast, (nickel-plated)

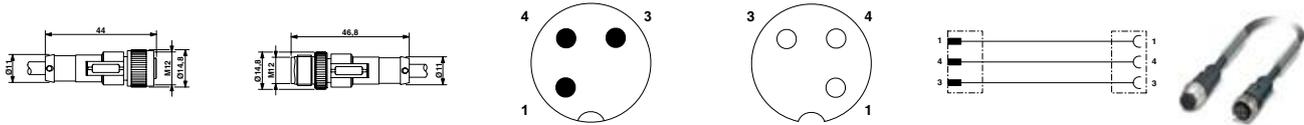

Material of grip body

TPU, hardly inflammable, self-extinguishing

S/A cable, M12 connector on M12 socket

S/A cable, M12 connector on M12 socket

Benefits

- Cost saving because of quick and easy installation
- Space saving because of compact dimensions
- Fast and easy error tracking
- Standardized interfaces

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

Product features

- 3-pos. connector
- Plug design with M12 thread on socket with M12 thread
- The cables have marker carriers
- Free of substances which would hinder coating with paint or varnish
- Drag chain suitable

Approvals (Norm references)

Design

- PUR halogen-free cable
- Permanently flexible control cable

S/A cable, M12 connector on M8 socket

S/A cable, M12 connector on M8 socket

Benefits

- Cost saving because of quick and easy installation
- Space saving because of compact dimensions
- Fast and easy error tracking
- Standardized interfaces

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

Product features

- 3-pos. connector
- Plug design with M12 thread on socket with M8 thread
- The cables have marker carriers
- Free of substances which would hinder coating with paint or varnish
- Drag chain suitable

Approvals (Norm references)

Design

- PUR halogen-free cable
- Permanently flexible control cable
- Design: 3 x 0.34 mm² (42 x 0.1 mm)
- Conductor colors brown, blue, black
- Sheath color black

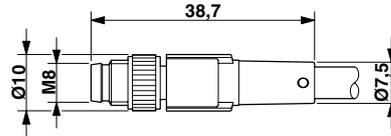

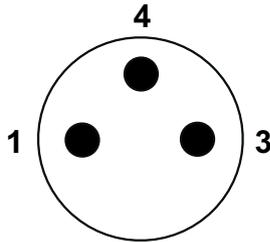

Technical data

IP	Degree of protection
	IP65/IP68/IP69K
0-1	Ambient temperature (operation)
	Plug / socket -25°C to 90°C Cable, fixed installation -40°C up to 80°C Cable, flexible installation -5°C up to 80°C

S/A cable, straight M12 Y plug on 2x M8 socket

S/A cable, straight M12 Y plug on 2x M8 socket

Benefits

- Cost saving because of quick and easy installation
- Space saving because of compact dimensions
- Fast and easy error tracking
- Standardized interfaces

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

Product features

- 3-pos. connector
- Design as M12 Y plug with 2 conductor exits
- The cables have marker carriers
- Free of substances which would hinder coating with paint or varnish
- Drag chain suitable

Approvals (Norm references)

Design

- PUR halogen-free cable
- Permanently flexible control cable
- Design: 3 x 0.25 mm² (42 x 0.1 mm)
- Conductor colors brown, blue, black
- Sheath color black

Technical data

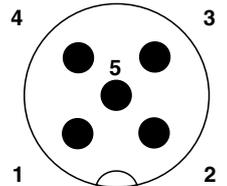

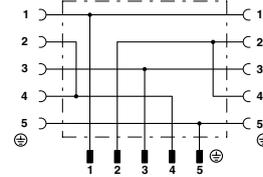

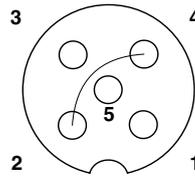

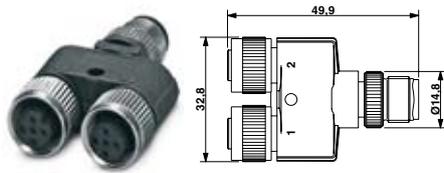

IP	Degree of protection
	IP65/IP68/IP69K

S/A box with M 12 slots and master cable

S/A box with M 12 slots and master cable

Benefits

- Inexpensive and efficient wiring of sensors and actuators
- Instead of numerous individual conductors, one master cable is laid to the control unit
- The master cable is designed as a hybrid cable carrying signals and power
- There are no assembly costs because the master cable is pre-assembled

Product features

- With permanently connected master cable
- Single or double-occupied sensor/actuator box
- With LEDs for sensor status display without LEDs for analog signals
- Free of substances which would hinder coating with paint or varnish

Technical data

IP	Degree of protection
	IP65/IP67/IP69K
Amp.	Max. current carrying capacity per path
	2 A
Amp.	Current carrying capacity per slot

- The pluggable connection ensures universal pluggability as well as simple on-site assembly

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop

- Automotive industry

Product features

- With M12/M16 plug-in connection
- Single-occupied sensor/actuator box
- LEDs indicate the operating mode of the distributor and the status of the sensors
- Free of substances which would hinder coating with paint or varnish

Approvals (Norm references)

M 16 socket with connected master cable

M 16 socket with connected master cable

Benefits

- Connecting cable for M8 boxes with 4 to 10 slots
- M16 connection

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Automotive industry

Product features

- Design as socket variant with M16 thread
- Free of substances which would hinder coating with paint or varnish

Approvals (Norm references)

Design

- PUR/PVC cable
- Permanently flexible control cable
- Sheath color black

Technical data

Degree of protection
IP 67

Ambient temperature (operation)

Plug / socket

-25°C to 90°C

Cable, fixed installation

-40°C up to 90°C

Cable, flexible installation

-5°C up to 80°C

Contact material

CuZn

Contact surface material

Ni/Au

Coding

UNITRONIC® SENSOR

Application range

- Cables for UNITRONIC® Fieldbus sensor-/actuator wiring requirements
- Data transmission cables to connect to M8, M12 connectors
- Automation technology
- Mechanical engineering
- Plant engineering

Product features

- Core colour in accordance with DIN EN 50044
- 3x 0.34 mm2
1= brown, 2= blue, 3= black
- 4x 0.34 mm2
1= brown, 2= white, 3= blue, 4= black
- 5x 0.25mm2 or 0.34mm2
1= brown, 2= white, 3= blue, 4= black, 5=grey
- 8x 0.25mm2
1= white, 2=brown, 3= green, 4= yellow, 5= grey, 6= pink, 7=blue, 8= red

Approvals (Norm references)

Design

- UNITRONIC® SENSOR LiFY
Conductor: Superfine bare copper strand in accordance with DIN VDE 0295 Class 6; Core insulation PCV, Outer sheath PVC vinyl
- UNITRONIC® SENSOR DESINA® LiFY 11Y
Stranded bare copper conductor, superfine. In accordance with VDE 0295 Class 6, special PVC insulation, cores twisted in layers, core ident code in accordance with DESINA® (brwon, white, blue, black). Outer sheath of special polyurethane based compound; colour yellow in acc. to RAL 1021; flame retardant acc. to IEC 60332-1-2. Operating voltage= 48 V, Peak working voltage= 300 V.

- UNITRONIC® SENSOR FD UL/CSA - LiFY11Y
Approved AWM UL-style 20549, 80°C / 300 V. Conductor: Cu wire, bare, super-fine strands in accordance with DIN VDE 0295 class 6. Core insulation: modified polypropylene (PP), outer sheath: halogen-free polyurethane (PUR), matt, adhesion free
- UNITRONIC® SENSOR COMBI LiFY 11Y 3x0,75+ 16x0,34
Conductor: Bare copper strand, single wire diameter: 0.10 mm for 0.34 mm2, 0.16 mm for 0.75 mm2, core insulation: PVC, external sheath: co-extruded double sheath: inner PVC, outer special PUR

UNITRONIC® BUS FD ASI

LAPP KABEL STUÏGART UNITRONIC® BUS FD ASI

LAPP KABEL STUÏGART UNITRONIC® BUS FD ASI

Benefits

- For highly flexible application (power chains, frequently moved machine parts)
- Increased oil resistance

Application range

- Communication at Sensor / Actuator level
- UNITRONIC® Fieldbus sensor-/actuator wiring requirements

Product features

- Data and energy are transmitted both via an unscreened, geometrically coded two-core flat cable (protection against polarity reversal).
- The conductor is contacted by “piercing technology” within the ASI-modules.

- Connection of sensors to the ASI module (coupling module) is carried out using round cables (connection cables).

Approvals (Norm references)

- ASI is standardised Europe-wide in EN 50295 and internationally in IEC 62026-2.

Design

- Stranded copper conductor, fine, 1.5 mm²
- Core insulation: Blue and brown
- Outer sheath of polyurethane (PUR) compound
- Colour: yellow (RAL 1023) or black (RAL 9005)

Technical data

- Peak working voltage**
(not for power applications) 300 V
- Conductor resistance**
(loop): max. 27.4 Ohm/km
- Minimum bending radius**
Fixed installation: 12 mm
Flexing without fixing: 24 mm
Flexing with fixing: 60mm (15xD)
- Test voltage**
Core/core: 2000 V
- Range of temperature**
Fixed installation: -40°C up to +90°C
Flexing: -30°C up to +80°C

Part number	Article designation	Sheath material	Sheath colour	Application	Number of cores and mm ² per conductor	Copper index kg/km	Weight kg/m

New

UNITRONIC® BUS FD FRNC L2/FIP FC UL/CSA

LAPP KABEL STUTTGART UNITRONIC® BUS FD FRNC L2/FIP FC UL/CSA

Benefits

- Fast Connect (FC) cable design
- Halogen-free and highly flame retardant
- Cables can be used for PROFIBUS-DP as well as PROFIBUS-FMS and FIP
- Drag chain suitable

Application range

- Intended for highly flexible use in power chains or permanently moving machines and linear robots
- This cable provides special advantages for the use in sensitive areas, where flame propagation must be avoided and the presence of toxic fumes would cause personal injuries and damage of property.

Product features

- Cable is UL/CSA approved (CMG)
- Halogen-free
- Flame retardant in accordance with IEC 60332-3

- Oil resistant
- The stated bit rates allow the following cable lengths (maximum) according to PROFIBUS User Organisation of one bus segment (Type A cable, PROFIBUS-DP):
 93.75 kbit/s = 1200 m
 187.5 kbit/s = 1000 m
 500 kbit/s = 400 m
 1.5 Mbit/s = 200 m
 12.0 Mbit/s = 100 m

Approvals (Norm references)

Design

- Fine strands of bare copper wires
- PE core insulation
- Inner sheath, screening foil and tinned copper braiding
- Outer sheath made of halogen-free PUR compound
- Colour: violet (RAL 4001)

Technical data

	Approvals UL/CSA (CMG)
	Mutual capacitance nom. 28 nF/km
	Peak working voltage Max. 100 V (not for power applications)
	Conductor resistance (loop): max. 110 Ohm/km
	Minimum bending radius Fixed installation: 10 x cable diameter Flexing: 15 x outer diameter
	Test voltage 1500 V core/core
	Range of temperature Flexing: -5°C up to +70°C Static: -30°C up to +80°C
	Characteristic impedance (3 - 20 MHz): 150 +/- 15 Ohm

EPIC® Data PROFIBUS Connectors 35° Screw Terminals

Info

- Interoperable to market standard

EPIC® Data PROFIBUS Connectors 35° Screw Terminals

Benefits

- Standardized interfaces
- Cost saving because of quick installation
- Easy to connect
- Small housing

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Switchable terminating resistor integrated
- Switch can also be operated when the connector is plugged and setting is clearly visible
- When being used as a through connector (two cable connections, node) the switch must be in the "OFF" position, if being as a terminal resistor (one cable connection) the switch must be in the "ON" position
- If the switch in in the "ON" position the outgoing bus cable is disconnected

Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS

Design

- Sub-D female socket, 9-pole
- Metalized housing
- Cable outlet 35°
- Optional with Servicing-/ programming interface (PG): Sub-D plug, 9-pole
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for PROFIBUS-DP/FMS/FIP 65
- Cables for PROFIBUS-PA, characteristic impedance 100 Ω

Technical data

Dimensions
54 mm x 40 mm x 17 mm (LxWxH)

Connection type
Screwing

Weight
approx. 40 g

Degree of protection
IP20

Outgoing cable

35° angulate

Terminating resistor

Resistor combination integrated, connectable with slide switch

Transmission rate

max. 12 MBit/s

Interfaces

PROFIBUS-station:

SUB-D socket, 9-pole

PROFIBUS-cable:

4 terminals for wires up to 1,0 mm²

Current consumption

max. 12.5 mA

Permissible ambient conditions

Surrounding air temperature:

0°C...+60°C

Transport and storage temperature:

-25°C...+80°C

Relative humidity:

max. 75% at +25°C

Voltage consumption

4.75 .. 5.25 V DC

(device is energized))

EPIC® Data PROFIBUS Connectors 90° Screw Terminals

Info

- Interoperable to market standard

EPIC® Data PROFIBUS Connectors 90° Screw Terminals

Benefits

- Standardized interfaces
- Cost saving because of quick installation
- Easy to connect
- Small housing

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Switchable terminating resistor integrated
- Switch can also be operated when the connector is plugged and setting is clearly visible
- When being used as a through connector (two cable connections, node) the switch must be in the "OFF" position, if being as a terminal resistor (one cable connection) the switch must be in the "ON" position
- If the switch in the "ON" position the outgoing bus cable is disconnected

Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS

Design

- Sub-D female socket, 9-pole
- Metalized housing
- Cable outlet 90°
- Optional with Servicing-/ programming interface (PG): Sub-D plug, 9-pole
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for PROFIBUS-DP/FMS/FIP
- Cables for PROFIBUS-PA, characteristic impedance 100 Ω

EPIC® Data PROFIBUS Connectors ATEX Screw Terminals

Benefits

- For usage in explosion hazardous areas of zone 2 (explosiv gasatmosphere appears seldom and for very short time)
- Standardized interfaces
- Cost saving because of quick installation
- Easy to connect

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Switchable terminating resistor integrated
- Switch can also be operated when the connector is plugged and setting is clearly visible
- When being used as a through connector (two cable connections, node) the switch must be in the "OFF" position, if being as a terminal resistor (one cable connection) the switch must be in the "ON" position
- If the switch is in the "ON" position the outgoing bus cable is disconnected

Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS
- ATEX-accreditation (EN 50021:1999)

Design

- Sub-D female socket, 9-pole
- Metalized housing
- Cable outlet 90°
- Optional with Servicing / programming interface (PG): Sub-D plug, 9-pole
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for PROFIBUS-PA, characteristic impedance 100 Ω

Info

- Interoperable to market standard

New

EPIC® Data PROFIBUS Connectors REPEATER

Info

- Interoperable to market standard

EPIC® Data PROFIBUS Connectors REPEATER

Benefits

- Areal alternative to conventional PROFIBUS repeaters
- Increases the number of nodes
- Cost saving because of quick installation
- Easy to connect
- No additional space needed in the cabinet very flexible in use

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Can be used as a bus extension or spur line
- 5V supply direct from PROFIBUS, with that it is usable on every PROFIBUS device
- Repeater covers transmission rates from 9.6 KBit/s to 12 MBit/s

• Transmission Rate→ max. segment length:

9.6 KBit/s	1000 m
187.5 KBit/s	1000 m
500 KBit/s	400 m
1.5 MBit/s	200 m
3 MBit/s	100 m
12 MBit/s	100 m

Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS

Design

- Sub-D female socket, 9-pole
- Metalized housing
- 24 V supply is not necessary
- Status LEDs
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for PROFIBUS-DP/FMS/FIP 65
- Cables for PROFIBUS-PA, characteristic impedance 100 Ω

Technical data

- Dimensions**
64 mm x 40 mm x 17 mm (LxWxH)
- Connection type**
Screwing
- Weight**
approx. 40 g
- Degree of protection**
IP20
- Outgoing cable**
90°
- Transmission rate**
9.6 Kbit/s to 12 MBit/s autodetection
- Interfaces**
Connection: SUB-D socket, 9-pole
PROFIBUS-cable: 4 terminals for wires up to 1,0 mm²
- Protocol:**
PROFIBUS DP per EN 50170
- Current consumption**
typ. 100 mA
- Permissible ambient conditions**
Surrounding air temperature: 0°C...+60°C
Transport and storage temperature: -25°C...+75°C
- Voltage consumption**
+5 V DC

EPIC® Data PROFIBUS Connectors 180° Screw Terminals

Info

- Interoperable to market standard

EPIC® Data PROFIBUS Connectors 180° Screw Terminals

Benefits

- Standardized interfaces
- Cost saving because of quick installation
- Easy to connect

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Switchable terminating resistor integrated
- Switch can also be operated when the connector is plugged and setting is clearly visible
- When being used as a through connector (two cable connections, node) the switch must be in the "OFF" position, if being as a terminal resistor (one cable connection) the switch must be in the "ON" position
- If the switch in in the "ON" position the outgoing bus cable is disconnected

Approvals (Norm references)

- Sub-D connection / pin assignment in accordance with PROFIBUS

Design

- Sub-D female socket, 9-pole
- Metalized housing
- Cable outlet 180° (AX)
- No losable parts
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for PROFIBUS-DP/FMS/FIP 65
- Cables for PROFIBUS-PA, characteristic impedance 100 Ω

Technical data

Dimensions
68 mm x 39.5 mm x 17 mm (LxWxH)

EPIC® Data CAN-Bus Connectors 90°

EPIC® Data CAN-Bus Connectors 90°

Benefits

- With additional insertion of 24 v DC to supply external USV (GND=Pin 6, CAN V+=Pin 9)
- Cost saving because of quick installation
- Easy to connect
- Standardized interfaces
- Small housing

Application range

- Automation technology
- Mechanical engineering
- Plant engineering
- Tool shop
- Control engineering

Product features

- Screwing connection
- Switchable terminating resistor integrated

- Because of integrated connectable terminal resistors the CAN-Bus can be terminated connect through
- When being used as a through connector the switch must be in the "OFF" position, if being as a terminal resistor, the switch must be in the "ON" position
- No losable parts

Design

- Sub-D female socket, 9-pole
- Metalized housing
- Optional with Servicing / programming interface (PG): Sub-D plug, 9-pole
- For cable diameter: 5.0 ... 8.0 mm

Suitable cables

- Cables for CAN UL/CSA-approved

Info

- Interoperable to market standard

Technical data

- Dimensions**
65 mm x 48 mm x 16 mm (LxWxH)

ETHERLINE® PROFIBUS DP Ethernet-Gateways

Benefits

- Gateway for connecting Ethernet-based architecture to PROFIBUS fieldbus systems.
- Comfortable configuration and administration via graphical user interface over Web Browser (HTTP protocol) or via serial port (RS232).
- Access up to three separate bus segment as a master or slave.
- Cost reduction attributable to fast system intergration and commissioning via user-friendly web interface.
- PROFIBUS® OPC Server gives you quick and convenient access to PROFIBUS DP and PA devices from any manufacturer. The configurator helps you put DP-V0 and DP-V1 networks into operation.

Application range

- Industrial use
- Different kind of communication via BUS systems and/or Ethernet based systems
- UNITRONIC® Fieldbus sensor-/actuator wiring requirements

Product features

- PROFIBUS® DP can be configured as master or slave
- Supported protocols: DP-V1 Master, FMS, FDL, MPI
- Transfer rates: 9.6; 19.2; 45.45; 93.75; 187.5; 500; 1500; 3000; 6000; 12000 kBit/s
- Connector: 9-pin D-sub

Approvals (Norm references)

- Mechanical stability
 - IEC 60068-2-27 Shock
 - IEC 60068-2-6 Vibration
- Interference proof
 - EN 61000-4-2 Discharge of static electricity

New

EPIC® SOLAR M pre-assembled

Info

- New versions with new solar cable ÖLFLEX® SOLAR XLR ST

New

EPIC® SOLAR F pre-assembled

Info

- New versions with new solar cable ÖLFLEX® SOLAR XLR ST

Benefits

- The LAPP GROUP uses its competence here as a cable and connector manufacturer and moulds ÖLFLEX® SOLAR cables with the EPIC® SOLAR connectors. This distinguishes EPIC® SOLAR from other assembled systems. The injection moulding technology is extraordinarily robust, achieves maximum tensile strength and is unbeatably tight. The injection moulding is made in an industrial process and continuously tested, resulting in products of a consistently high quality.

Application range

- Pre-assembled injection moulded solar cables for weather proof cabling of Photovoltaic systems

Product features

- These one-side pre-assembled cables with EPIC® SOLAR connectors are available as a male (M) and female (F) version in combination with ÖLFLEX® SOLAR XLR ST in different cross sections.
- Other lengths and cable end versions on request

Suitable cables

- ÖLFLEX® SOLAR XLR ST siehe Seite 19

EPIC® SOLAR FMM Y-Splitter

Info

- New versions with new solar cable ÖLFLEX® SOLAR XLR ST

New

EPIC® SOLAR MFF Y-Splitter

Info

- New versions with new solar cable ÖLFLEX® SOLAR XLR ST

Benefits

- Y-splitters makes possible the parallel connection of solar modules. The EPIC® SOLAR Splitter is installed behind solar panels or behind facades. Maximum reliability achieved through industrial injection overmolding of the Y-Splitter with ÖLFLEX® SOLAR cables.

Application range

- Y-splitters for fast and simple parallel cabling

Product features

- Rugged, UV- resistant and weatherproof
- TÜV Rheinland: in preparation
- UL: in preparation
- 100% tested cable sets with lowest transfer resistance for maximum power transmission

EPIC® M23 Inserts 12 pole PCB-soldering

Info

- With solder pins for PCB-boards
- Only for housing type A1, B1, B2

New

EPIC® M23 Inserts 17 pole PCB-soldering

Info

- With solder pins for PCB-boards
- Only for housing type A1, B1, B2

Suitable housing:

- EPIC® CIRCON M23 Housings
- All inserts are fitting in all housings
- Designed for housing type B1/B2

Benefits

- Inserts with solder pins at the rear side for soldering in PCB-boards. Ideal in combination with M23 housings type B1/B2 for rear wall mounting.

Application range

- Plant engineering
- Measurement and control technology
- Apparatus construction

Technical data

Rated voltage in V

New

EPIC® H-B 10 AGS-LB

Info

- Housing for motor termination

Benefits

- The smallest housing with single and double locking lever. For every application the right housing

Application range

- Plant engineering
- Light & Sound technology
- Plastics industry

Product features

- Panel mount base
- Single lever
- Angled version
- Including flat gasket

Suitable inserts

- EPIC® H-BVE 3
- EPIC® H-DD 42
- EPIC® H-EE 18
- EPIC® MCR 10
- EPIC® H-BE 10 Screw termination
- EPIC® H-BE 10 Crimp termination
- EPIC® H-BE 10 Cage clamp
- Additional support for selection of inserts and housings, please refer to the Selection Table A10

Technical data

Material
 Housing: aluminium alloy powder-coated grey
 Lever: steel, zinc-plated
 Sealing: NBR

Degree of protection
 IP 65 (latched)

Range of temperature
 -40°C - +100°C, temporary up to +125°C

SKINTOP® ST-M / SKINTOP® STR-M

Benefits

SKINTOP® ST-M

- Maximum reliability
- Various accessories (e. g. multiple sealing inserts)
- Permanent vibration protection
- Optimal strain relief
- Large, variable clamping ranges

SKINTOP® STR-M

- Benefits see SKINTOP® ST-M

Application range

SKINTOP® ST-M

- Everywhere where cables must be safely inserted into housings.
- Machine and apparatus construction
- Photovoltaic
- Automation technology
- Mobile off shore units, equipment and ship yards

SKINTOP® STR-M

- With reducing seal insert, to seal cables with smaller outer diameters.

Approvals (Norm references)

Design

- Metric connection thread acc. to EN 50262

Note

SKINTOP® MS-M / SKINTOP® MSR-M

SKINTOP® MS-M

SKINTOP® MSR-M

Benefits

SKINTOP® MS-M

- Maximum reliability
- Optimal strain relief
- Large, variable clamping ranges
- For cable diameters up to 98 mm

SKINTOP® MSR-M

- Benefits see SKINTOP® MS-M

Application range

SKINTOP® MS-M

- In areas with high demands on special mechanical and chemical stability.
- Chemical industry
- Measurement and control technology
- Machine and apparatus construction
- Plant engineering

SKINTOP® MSR-M

- With reducing seal insert, to seal cables with smaller outer diameters.

Approvals (Norm references)

Design

- Metric connection thread acc. to EN 50262

Note

- Counter nut to be used SKINDICHT® SM-M
- For suitable accessories see SKINTOP® metric accessories

Suitable cables

SKINTOP® MS-M

- For IP 69 K applications we recommend to use the following cables:
ÖLFLEX® ROBUST 200
ÖLFLEX® AQUA RN8
ÖLFLEX® AQUA BAM

Info

- Sizes SKINTOP® MS-M 75x1,5 to 110x2 with innovative double lamella gasket for easier assembling of cables with large diameters.
- Now with IP 69 K approval! Proven functionality also during hardest cleaning procedures at industrial machinery with high-pressure cleaners and hot water!

New

SKINTOP® MS-SC-M BRUSH

Benefits

- Faster, easier screen contact
- Optimal low-resistance 360° screen contact
- Faster than any other comparable system
- Uncomplicated and reliable
- Maximum assembly and adjustment possibility

Application range

- For EMC compliant earthing of the copper braiding and copper shaft sheath.
- Automotive systems
- Conveyor technology
- High power drives
- Frequency converters

Approvals (Norm references)

Design

- Metric connection thread acc. to EN 50262

Note

- For painted, anodised or powdered-coated housings, you will require our EMC counter nut SKINDICHT® SM-PE-M for best contact

Info

- **Sizes SKINTOP® MS-SC-M BRUSH 75x1,5 to 110x2 with innovative double lamella gasket for easier assembling of cables with large diameters.**

Technical data

- Caution**
Installation dimensions and tightening torques see Appendix T21
- Approvals**
VDE approval for sizes M90x2 to 110x2 pending
- Material**
Body: nickel plated brass
Insert: polyamide
Seal: special elastomer
O-ring: special elastomer
- Degree of protection**
IP 68
- Range of temperature**
Dynamic: -30°C up to +100°C

SKINTOP® DIX-M AUTOMATION

SKINTOP® DIX-M AUTOMATION

■ **Benefits**

- Optimum seal when using AS-I bus cables
- Easy insertion of pre assembled cables (with fieldbus or RJ-45 connector)
- Strain relief

■ **Application range**

- This seals can be used instead of our standard seals in the SKINTOP® cable glands.
- Switch cabinets
- Control panels
- Office applications
- Automation technology

■ **Approvals (Norm references)**

■ **Note**

- IP 68 can be achieved if the hole is optimally occupied, i. e. when using standard AS-I bus cables

■ **Design**

- True to dimension cut for AS-I bus cables
- Seal with hole and cut for easy insertion of pre assembled RJ-45 network cables
- Seal with hole and cut for easy insertion of pre assembled fieldbus cables
- Multiple seal inserts with holes and cuts for easy insertion of pre assembled cables

New

SILVYN® FLEXILOK PG / SILVYN® FLEXILOK M

Info

- Extremely economical

Benefits

- Fast mounting
- Easy assembly
- Cost efficient conduit gland
- No losable parts
- New space-saving design

Application range

- Mechanical engineering
- Switch cabinet building
- Flexible application
- Applications with critical required space
- Building Installation

Product features

- UV resistant and weather proof
- One-piece slim design
- Oil and petrol resistant

- Halogen and cadmium-free

Approvals (Norm references)

Design

- Connection thread metric/PG
- One-piece body
- Special clamping system

Note

- Removeable by a screw driver

Suitable conduits

- SILVYN® FPAS
- Corrugated plastic conduits

Single core marking

FLEXIMARK® Single core marking

New

FLEXIMARK® Collar Snap-on

FLEXIMARK® Collar Snap-on

Benefits

- Efficient way of marking on ready-installed cables and wires
- Scratch protection
- Unique system for rational and durable marking of wires and thin cables (e.g. fibre-optic cables) in control cabinets.

Application range

- FLEXIMARK® snap-on collar is composed of one rigid and elastic part that snaps onto the cable, and a soft, transparent part designed to hold the marker. It can therefore still be marked after the electrical connection has been made.
- UNITRONIC® Fieldbus sensor-/actuator wiring requirements

Approvals (Norm references)

Note

- FLEXIMARK® labels LMB can be used in different marking collars. These labels are on DIN A 5 sheets and can be printed easily with the FLEXIMARK® Software 9.0. These labels are halogen-free.

Scope of delivery

- Marking collars without labels (please see FLEXIMARK® labels LMB - 10 pcs.DIN A 5 sheets a 46 labels)

Technical data

	Approvals Flame retardant in accordance with UL94 V0

New

FLEXIMARK® Collar halogenfree

FLEXIMARK® Collar halogenfree

Benefits

- Scratch protection
- Durable application
- FLEXIMARK® collars halogen-free are provided with a marking sleeve giving an efficient scratch protection for the marking, thus resistant towards most of the strains in the environment. This collar does not release halogenous substances if burned, and is therefore used in high-risk installations.

Application range

- Control cabinet wiring
- UNITRONIC® Fieldbus sensor-/actuator wiring requirements

Product features

- FLEXIMARK® labels LMB can be used in different marking collars. These labels are on DIN A 5 sheets and can be printed easily with the FLEXIMARK® Software 9.0. These labels are halogen-free.

FLEXIMARK® Collar with cable tie

FLEXIMARK® Collar with cable tie

Info

- Sample labels on request

■ Benefits

- These FLEXIMARK® collars are also provided with an efficient scratch protection, which is why they can be mounted even in an outdoor environment.
- Reliable solution due to the fact of bundling with cable ties

■ Application range

- Together with the FLEXIMARK® labels LMB this becomes a reliable solution for marking. This collar can easily be mounted on a cable with cable ties.

- UNITRONIC® Fieldbus sensor-/actuator wiring requirements

■ Approvals (Norm references)

■ Scope of delivery

New

Kraftform® adjustable torque screwdriver/Kraftform Kompakt® Set

Kraftform® adjustable torque screwdriver/Kraftform Kompakt® Set

Benefits

- Fatigue free due to ergonomic grip design
- Suitable for many EPIC® connector systems and in network/automation branche (Sensor-/Actuator wiring requirements)
- Simple, free assembly in any position
- Safety close at hand

Application range

- When screwing smaller screws, the user often relies on his specialist sense.
- In practice, this can often lead to significantly higher extracting values.
- The consequences are ripped-off screw heads and over-twisted screw threads.
- Solution is offered by this practical torque screwdriver for 0.3 - 1.2 Nm.

Product features

- Quick and easy tool change thanks to the quick-change chuck

Design

- Torque screw driver Kraftform® for 0,3-1,2Nm
- Screw driver set Kraftform Kompakt® 10-pieces (Bit included: 1xR, 1xTZ, 1xTZ PH, 1xTZ PZ, 1xTZ TORX® in several versions incl.1 hand screw driver without torque system)

Scope of delivery

- Traceable calibration certificate contained in the scope of delivery

Technical data

Caution
Can be used without hesitation in areas requiring ESD protection
ESD version in acc. with EN 100-015 Part 1

Guide, advisor, reference book

In this book, the reader will find all that is worth knowing about the generation, use, and distribution of electricity, as well as the technology of data communication, cables, control cables, and optic fibres. All of these topics are illustratively described and

supplemented with articles, tables and specialist terminology. This is a book both for trainees and experienced practitioners. It is available in German, English or Russian.

The Lapp Cable Guide

In the "Lapp Cable Guide" you will find many of the technical terms used in the electrical industry. From A as in "absorption" to Z as in "zinc", the terms are listed in alphabetical order and accompanied by a short but

concise explanation. The "Lapp Cable Guide" also contains a large number of useful tables and charts. The English translation is also provided, along with many tables and overviews.

A quick click instead of a long search:

The complete 2008/09 product catalogue on CD-ROM

Safety

Without exception our products are tested for application safety in accordance with laid down standards and our own regulations, which complement the standards. Relevant legal requirements and safety regulations are also observed. Provided due care and attention is paid, the possibility of product-specific danger to the user may thus reasonably be excluded. Where products are used carelessly or incorrectly, however, considerable

danger to persons and the environment may arise. For this reason, our cables must only be processed and /or used responsibly by trained electricians or specialists. This catalogue contains general information for the application of each product. Independent of such information, the application standards DIN VDE 0298 and DIN VDE 001 for cables will apply. Excerpts from these standards, as well as complementary selection

and application tables, design and installation guidelines, are contained in the tables in the appendix to the main catalogue. Our machines and installation tools are - where necessary - designed in accordance with the machine guidelines and display the CE identification mark. It must be noted, however, that our machines and installation tools must only be used by trained specialized personnel and for the purpose for

which they were designed. ©Copyright by U.I. Lapp GmbH. Reprinting or reproduction of the text or the illustrations may be made only with written approval and with correct indication of source. We reserve the right to make modifications to our products, especially those based on technical improvements or continued development. All illustrations and numerical data etc. are therefore without warranty and are subject to change.
